Subject: **DECLARATION OF CONFORMITY**

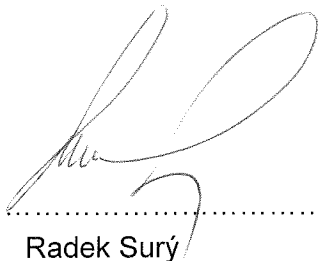

The strength properties of the main spars of wings – long and short caps (E2 02-06 21, E2 02-07 21) were checked up at all aeroplanes mentioned in the chart below. Conductivity and hardness were checked in accordance with the document M-EV97-01/2009. Wing spar caps comply with requirements of material quality specified in the mentioned document. All examined airplanes are airworthy without any limitations specified in the Mandatory Bulletin EV97-013a.

Aircraft serial No.	Registration Mark	Complied / Replacement
20021528	OH-U448	Complied
